SUMMARY

In previous industry relevant experiences, I have demonstrated the ability to translate the internet marketing needs and requests of my clients into a functional web presence from the ground up.

Additionally, the web development contributions I made for clients/employers have helped them to improve their marketing presence, gain more clientele and earn more revenue.

SKILLS

HTML5, CSS3, SASS, Bootstrap, Foundation, JavaScript, JQuery, Object Oriented Programming, Git and GitHub, cPanel, API integration, Adobe Photoshop, Figma, Microsoft Office 360, (now learning ReactJS)

EXPERIENCE

Freelance Work, Lakeland, FL – Frontend Web Developer

January, 2017 – PRESENT

- Design website mockups for clients to ensure quality control and client satisfaction before the commencement of coding.
- Develop, enhance and maintain custom, responsive websites per specifications and requirements provided by clients, with emphasis placed towards meeting their internet presence and marketing goals.

Golden Glow Security LLC, Elmont, NY – Frontend Web Developer/IT Technician

November, 2004 – PRESENT

- Helped to increase company's clientele by strategically designing, developing, and maintaining the company website (<http://www.goldenglowsecurity.com>), with the demographics of the visitors in mind.
- Set-up, troubleshoot and maintain company's hardware and software systems.

East End Arts, Riverhead, NY – Education Director

July, 2013 – November, 2014

- Helped the organization to gain more students and increase revenue by leading effort towards translating key segments of the organization's webpage into a Spanish language splash page (<http://www.eastendarts.org/about/esp.html>).
- Prepared and assisted in formatting marketing materials for the Marketing Director to place on the organization's website.
